

Steps to add fonts to text in a pdf

This document describes how to edit and add fonts to text in a pdf. You will need Adobe Acrobat Pro DC to do this. The following is done on Adobe Acrobat Pro DC (32-bit).

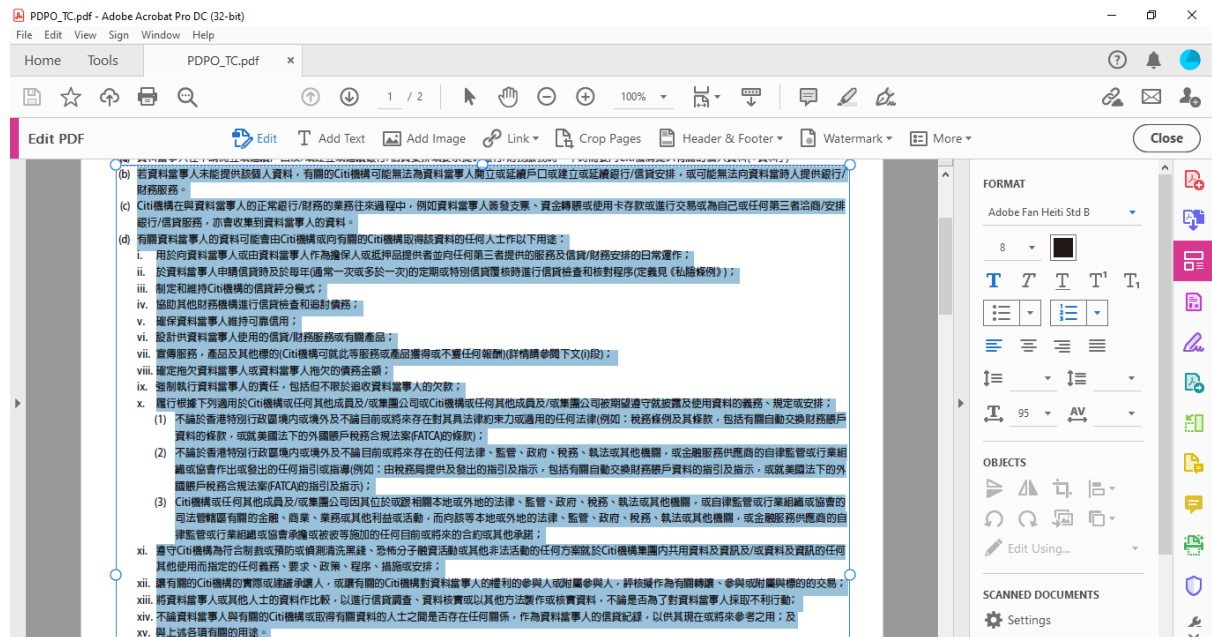

1.open the pdf file in Acrobat pro DC

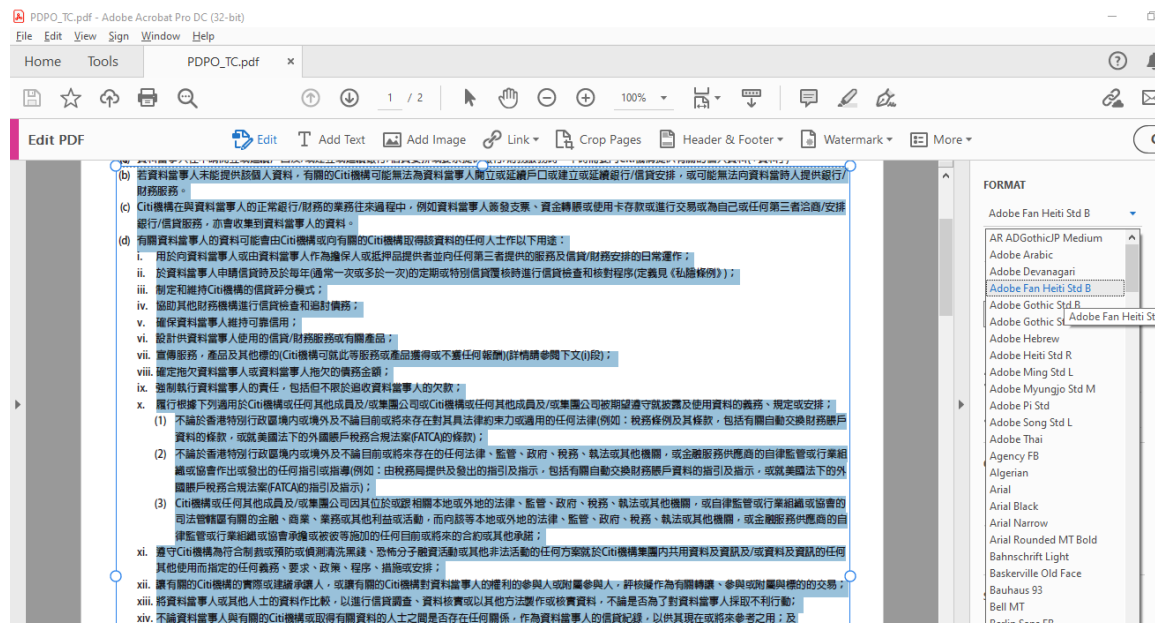

2.Right Click and select **Edit Text and Images** option.

3. Select the text for which fonts are to be added. (Ctrl+A) for selecting overall text box.

4. Choose the required font under the **FORMAT** menu displayed on the right-side toolbar (preferably **Adobe Fan Heiti Std B** for Chinese text).

5. Follow the same procedure for other text boxes as well. In this way, desired font styling can be applied for the whole PDF.

6. Verify if the selected font is applied for the PDF from **File→Properties→Fonts** menu and save the final PDF.
